

# Health & Safety CONFINED SPACE ENTRY

 : 24 Hours

 : Rig World

 : Safety Training

 : Oil & Gas

 : 365 Days.

## Description :

★★★★★ 4.9/5

Two-thirds of all confined space fatalities involve would-be rescuers. To prevent such tragic incidents, it's crucial to implement proper confined space entry practices that eliminate the need for rescue operations. Even the best-planned rescues can turn fatal. Rescues can be carried out by any trained and qualified employee or professional rescuer. Qualifications include both knowledge and experience in handling all hazards related to rescue and confined space entry operations.

Confined Space Rescue training is essential and legally mandated for employers with permit-required confined spaces where employees will work. This training ensures that rescue and emergency services are available in case of an accident. It also serves to refresh previously learned concepts and provides regular hands-on training and drills to maintain the competence of Emergency Response Team (ERT) members.

## Learning Objective :

- Introduction to Confined Space Entry
- Confined Space Program Elements
- Confined Space Entry Permit (Purpose)
- Confined Space Atmospheric Hazard
- Confined Space Non-Atmospheric Hazard
- Controlling confined space hazards
- Confined Space Entry Team
- Confined Space Rescue
- Confined Space Training Requirement
- Confined Space Final Assessment

## Assessment :

- Candidates must achieve 70 % in the assessments.

## System Requirements :

- Internet access - users will need a device with a web browser and internet connection
- System - runs on computers, tablets and mobile devices using Windows 7 and above and MAC OS devices running IOS 11 and above
- Browsers - Edge, Chrome, Firefox and Safari
- Minimum browser size - none
- Audio - requires device speaker or headphones

## Accreditations :

 : 24 Hours

 : Rig World

 : Safety Training

 : Oil & Gas

 : 365 Days.
