HYDROGEN SULPHIDE (H₂S)

Description :

★★★★★ 4.9/5

Hydrogen Sulfide (H₂S) poses a significant threat to human lives, necessitating constant vigilance when working in environments where this poisonous gas may be present. H₂S is characterized as a colorless, highly flammable, and extremely toxic gas, commonly produced as a by-product in various industries.

Training on H₂S enables personnel to understand and protect themselves and others from its dangers. It covers the fire and health hazards associated with H₂S, emphasizing the importance of situational awareness, rescue operations, and working in high-risk atmospheres.

The training focuses on protecting people, equipment, and the environment while ensuring compliance with legislation and other regulatory requirements.

 www.e-RIGWORLD.com info@erigworld.com India : +91 9998979544

Learning Objective :

- Introduction of H2S
- Source of H2S
- Properties & Characteristics of H2S
- Effects of H2S on Lives and Property
- H2S Gas Detection and Monitoring
- Safe Working Practice with H2S
- Respiratory Protection
- Rescue Procedure
- Contingency plan and Emergency Procedure
- Hydrogen Sulfide (H2S) Final Assessment

Assessment :

- Candidates must achieve 70 % in the assessments.

System Requirements :

- Internet access - users will need a device with a web browser and internet connection
- System - runs on computers, tablets and mobile devices using Windows 7 and above and MAC OS devices running IOS 11 and above
- Browsers - Edge, Chrome, Firefox and Safari
- Minimum browser size - none
- Audio - requires device speaker or headphones

Accreditations :

 : 24 Hours

 : Rig World

 : Safety Training

 : Oil & Gas

 : 365 Days.
