

WELL CONTROL & TECHNICAL TRAINING

Well Testing

 : 24 Hours

 : Rig World

 : Well Control &
Technical Training

 : Oil & Gas

 : 365 Days.

Description :

★★★★★ 4.8/5

The Well Testing Crash Course is an online training program that delves into the essentials of well-testing operations and calculations. This course aims to equip participants with a thorough understanding of various well test types, well testing equipment, and the associated procedures and safety protocols. By the end of the course, participants will have a solid grasp of well testing theory and the ability to calculate key parameters like gas oil ratio (GOR) and productivity index (PI) for evaluating well performance. The course also features case studies and real-life examples to illustrate the practical application of well testing data analysis. This crash course is perfect for those looking to enhance their expertise in well testing operations and data analysis.

 India : +91 9998979544

Learning Objective :

- Introduction
- Well Testing Introduction
- Overview of Drill Stem Testing
- Tubing Conveyed Perforation Overview
- Surface Well Testing Overview
- Well Testing Layout
- Well Testing Safety
- Types of Well Tests
- Well Testing Sequences
- The Cleanup Period
- The Well Test Data
- Productivity
- Well Testing Final Assessment

Assessment :

- Candidates must achieve 75 % in the assessments.

System Requirements :

- Internet access - users will need a device with a web browser and internet connection
- System - runs on computers, tablets and mobile devices using Windows 7 and above and MAC OS devices running IOS 11 and above
- Browsers - Edge, Chrome, Firefox and Safari
- Minimum browser size - none
- Audio - requires device speaker or headphones

Accredetations :

 : 24 Hours

 : Rig World

 : Well Control & Technical Training

 : Oil & Gas

 : 365 Days.
