

# WORK PERMIT SYSTEM

## Health & Safety PERMIT TO WORK

 : 24 Hours

 : Rig World

 : Safety Training

 : Oil & Gas

 : 365 Days.

### Description :

★★★★★ 4.9/5

The Permit to Work (PTW) system is essential for managing high-risk or unique work activities that pose greater risks than routine tasks. It is supported by comprehensive management policies, procedures, and processes designed to regulate work activities and mitigate risks.

Employees have access to a system that helps companies control hazards, clearly defines roles and responsibilities related to work authorization, and ensures the PTW system encompasses all workers involved. This system includes training and instructions for work procedures.

PTW training creates awareness about the authority related to work locations and the associated risks and hazards. It helps organizations understand and manage hazards, comply with legal requirements, and identify gaps in their safety systems.
