LOCK OUT TAG OUT (LOTO)

 : 24 Hours

 : Rig World

 : Safety Training

 : Oil & Gas

 : 365 Days.

Description :

★★★★★ 4.5/5

Lockout/Tagout (LOTO) involves the application, implementation, and practice of procedures to control energy sources in processes that could affect personnel working on them. Properly performed LOTO procedures before equipment service or maintenance effectively control hazardous energy and protect workers from potential harm.

This training covers several key aspects: understanding the legal requirements, gaining awareness of energy control, learning the procedures and responsibilities involved, and correctly installing LOTO devices as needed. Employees will benefit from knowledge about controlling and neutralizing energy directly at the source. LOTO is considered the most effective and preferred method for safely isolating energy during work.

Learning Objective :

- Introduction & Purpose of LOTO
- General requirements of LOTO
- LOTO Procedure
- Additional Requirements of LOTO

Assessment :

- Candidates must achieve 70 % in the assessments.

System Requirements :

- Internet access - users will need a device with a web browser and internet connection
- System - runs on computers, tablets and mobile devices using Windows 7 and above and MAC OS devices running IOS 11 and above
- Browsers - Edge, Chrome, Firefox and Safari
- Minimum browser size - none
- Audio - requires device speaker or headphones

Accredetations :

 : 24 Hours

 : Rig World

 : Safety Training

 : Oil & Gas

 : 365 Days.
